# Calliope

## OUR ENVIRONMENT CHARTER

Calliope-Interpreters has adopted a charter in order to contribute to protecting the environment, and undertakes to promote greater awareness of environmental issues among its partners (interpreters, suppliers and clients).

We have pledged to:

- ✓ Reduce, as far as possible, our impact on the environment, in particular by recruiting our teams locally to minimize travel, and by opting for cleaner modes of transport or public transport.
- ✓ Adopt a less damaging consumption model (avoid waste, recycle, choose local products, limit energy consumption).
- ✓ Make a direct contribution to combatting climate change, and invite our clients and partners to do the same.
- ✓ Promote greater awareness of this complex issue among our partners, in particular by providing them with recommendations, and by choosing, whenever possible, to partner with environmentally aware individuals and organizations. We have drafted an Interpreters' Charter, which our interpreters sign and undertake to abide by.
- ✓ Publish an annual report reviewing our approach and the action we have taken.

With this in mind, when we recruit non-local interpreters, we endeavour to minimize our carbon footprint by calculating and offsetting our emissions.

Every year we make a financial contribution to an environmental fund.
